Clean ingredient solutions and practical processing support

Our Grocery Range

Real ingredient photography • practical product categories • flexible supply

FLOURS

- Wheat Flour
- Maida
- Ragi Flour
- Rice Flour
- Jowar Flour
- Bajra Flour
- Besan

PULSES

- Toor Dal
- Moong Dal
- Masoor Dal
- Chana Dal
- Urad Dal
- Whole & Split Pulses

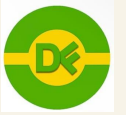

GRAINS & SEEDS

- Rice & cereal grains
- Millets
- Sesame
- Flax
- Sunflower
- Pumpkin
- Chia

SPECIALTY BLENDS

- Multigrain Flour
- Millet Flour Blends
- Custom flour blends
- Ingredient powder blends

Flours

Everyday staples, millet flours and specialty/custom flour blends

EVERYDAY

- Wheat Flour
- Maida
- Rice Flour

MILLET FLOURS

- Ragi Flour
- Jowar Flour
- Bajra Flour
- Millet Flours

SPECIALTY

- Besan
- Multigrain Flour
- Custom flour blends
- Application-specific blends

Flour solutions for retail and food businesses

Individual flours or blended formulations can be prepared according to the intended application, required texture and customer specification.

WHEAT FLOUR

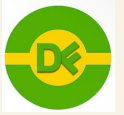

Daily staple

RAGI FLOUR

Millet staple

BESAN

Gram flour

Pulses & Grains

Indian staples presented with a natural, ingredient-focused look

PULSES

- Toor Dal
- Moong Dal
- Masoor Dal
- Chana Dal
- Urad Dal
- Whole Pulses
- Split Pulses

GRAINS

- Rice varieties
- Wheat grains
- Millets
- Cereal grains
- Other food-grade grains

Flexible grocery supply

Our range covers familiar household staples as well as ingredients suited to food-service, bulk supply and food formulations.

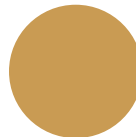

TOOR

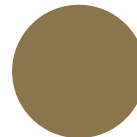

MOONG

WHEAT

MILLET

Powders

Spice and ingredient powders for everyday and industrial applications

CORE SPICES

- Turmeric
- Chilli
- Coriander

AROMATIC

- Cumin
- Pepper
- Other spice powders

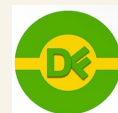

INGREDIENT

- Ginger
- Garlic
- Onion
- Custom powders

Powder processing support

Pulverising and sieving can be combined with mixing and packing to create a practical third-party manufacturing workflow.

Third-Party Manufacturing

A clear process from incoming ingredient to finished pack

Processing support under one workflow

Pulverising • Sieving • Mixing • Packing

PULVERISING

Size reduction for selected food ingredients.

SIEVING

Screening for the required particle range.

MIXING

Homogeneous blending of ingredients.

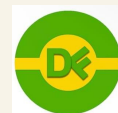

PACKING

Packing support for finished products.

MATERIAL → PULVERISING → SIEVING → MIXING → PACKING → FINISHED PRODUCT

Process sequence can be adapted to the product and customer specification.

Processing Capabilities

Controlled particle size and preparation for downstream processing

PULVERISING

Size reduction of selected raw materials into a suitable powder or finer form. Useful for flour, spice and ingredient processing where particle size matters.

PROCESS SUPPORT

Ingredient preparation • Fine grinding

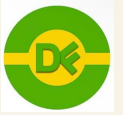

SIEVING

Screening helps separate particles and support a more consistent powder profile.

PROCESS SUPPORT

Screening • Particle classification

Mixing & Packing

From accurate blending to practical finished-product handling

MIXING

Blending of multiple ingredients to achieve a consistent final formulation. Suitable for customized food ingredient and powder-blend requirements.

PROCESS SUPPORT

Batch mixing • Custom combinations

PACKING

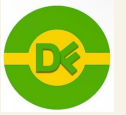

A practical packing stage for prepared products and finished ingredient blends.

PROCESS SUPPORT

Packing operation • Pack-size support

DREAMY FOODS

From ingredients to finished products.

Groceries • Processing • Mixing • Packing
